Saturdays & Sundays 8-10am and 2-4pm

£20 per term per family

For more information, contact us on info@marescharity.co.uk or 07866686166.

This family-oriented club operates on a self-registration process where you can come and tend to your own outdoor space.

The Allotment Club is an opportunity for our families to build their own raised bed to grow their own fruit and vegetables. They can also be actively involved in the farm environment.

The ongoing allotment sites is not be supervised, however advice and help is available upon request.

We supply the materials to build the beds and a starter pack of seeds. You will have use of the green house and all tools needed are close by. During the year, there will be competitions such as the tallest sunflower or the largest pumpkin. Prizes are garden centre vouchers and certificates.

You are welcome to help yourself to the fresh manure available on the farm.

Little Mares Clubs offer activities within a farm-based environment. The aim is for children to gain knowledge and confidence to enjoy the outside and the animals that live there. We also actively encourage families to come together to enjoy the surroundings of our natural environment.
